CARDINAL GIBBONS REPORTED NEAR DEATH

Death of Prelate Momentarily Expected By Physicians.

Was Unconscious Most of Wednesday.

(By Associated Press)
Baltimore, March 23.—The death of Cardinal Gibbons was momentarily expected tonight and his physician believed he would not have the strength to live through another day, it was announced this evening.

Throughout the day the Cardinal's condition was precarious. He lapsed into unconsciousness several times, each time the physician believing the end had come. Every effort was made to ward off the hour of his death.

In all the Catholic churches of the city prayers were offered for his recovery or happy death.

(By Associated Press)
Baltimore, Md., March 23.—Cardinal Gibbons passed a restless night and was weaker this morning, his secretary, the Rev. Albert E. Smith, said, adding, however, that the doctor had reported the patient's pulse to be good and had told the members of the household that there was no immediate danger unless something unforeseen set in. His heart action was said to be weak and his temperature low.

No attempt was made to minimize the gravity of the cardinal's case. Since his return in January to the arch-episcopal residence from the home of friends at Union Mills, Maryland, where he became seriously ill last December, the cardinal's condition apparently had continued to improve.

The change for the worse occurred last Sunday night, but announcement of the fact was withheld in the hope that the bad turn would prove to be only temporary.

As time went on, however, instead of improving, his condition became graver, and it was decided to let his friends know the unfavorable state of affairs.

FORD COACH BREAKS DOWN ON TRIAL TRIP

Engine Trouble Develops After First Run.

Springfield, O., March 23.—Henry Ford's new gasoline passenger coach making its maiden trip over the D. T. & I. railroad with Mr. Ford and a party of business associates as passengers.

POLICE PRECINCT FOR WOMEN OPENED IN NEW YORK; HAS DETENTION QUARTERS

Mrs. Mary E. Hamilton and Mrs. Isabel Goodwin, in foreground, and group of patrol women before the new precinct.

Several cities have found women police useful, but New York is the first to give over to them a complete precinct. Those in charge are in no wise amateurs. Mrs. Isabel Goodwin was the first woman detective on the New York force and Mrs. Mary E. Hamilton was the first patrolwoman. One interesting phase of their work will be the detention service—two floors of their building will be used for the women held as witnesses for criminal action, truancy cases, etc.

engers developed motor trouble one mile out of Springfield this afternoon forcing the party to abandon it and proceed to Dayton by automobile. The coach left Detroit this morning and traveled as high as 70 miles an hour until engine trouble developed.

DIVORCE ACTION TAKES NEW TURN WIFE IS ACCUSED

Justice Now Has Alimony Under Consideration

Attorney Fees of \$25,000 Is Asked in Case

(By Associated Press)
White Plains, N. Y., March 22.—A definite charge that Mrs. Anna U. Stillman, wife of James A. Stillman, president of the National City Bank of New York, was the mother of a child by an Indian guide, was made in Supreme court here today, by counsel for Mr. Stillman, during preliminary argument in the divorce suit the bank president has brought.

Addressing Justice Morschauer, who presided at the hearing on alimony and counsel fees, Delancey Nicoll, chief counsel for Mr. Stillman made the charge.

The hearing lasted only about half an hour. When it was adjourned, Justice Morschauer reserved decision on the motion before him for alimony of \$10,000 a month and counsel fees of \$25,000 for Mrs. Stillman.

During the hearing Mr. Stillman's income was admitted by one of his lawyers to have been \$536,000 in 1920. John E. Mack, guardian ad litem for Guy Stillman, 28 months old baby whose paternity is questioned in the case, told the court he wished to correct Mr. Nicoll's statement charging the baby was illegitimate.

"The evidence before the referee," he said, "does not show any other person than James A. Stillman to be the father of this child."

FLYER LEAPS 24,000 FEET IN PARACHUTE

(By Associated Press) Champagne, Ill., March 23.—Lieut.

Arthur G. Hamilton established a world record for parachute leaping at Chanute field this afternoon when he dropped 24,400 feet.

The flyer landed safely eight miles from the field. Lieut. Harry Weddington was the pilot of the plane from which the leap was made.

Disputes Allied Reparations Commission's Figures

Showing Balance of One Billion Gold Marks Due

Asks Appointment of Joint Commission of Experts

To Fix Value of Germans' Reparations Delivery Account

Allied Commission Meeting To Consider Reply

(By Associated Press)

Paris, March 23.—Germany, in her reply today to the recent ultimatum of the Allied Reparations Commission, refuses to pay the one billion marks gold due on this date, and disputes the commission's figures showing a balance of twelve billion marks due May 1.

It is maintained in the German note that the twelve billion marks which the peace treaty provides should be handed over by May 1st has been more than paid.

The note asks that a joint commission of experts fix the value of the German delivery on reparation accounts, but it declares that in any event it would be impossible for Germany to pay twelve billion marks by the first of May. The note concludes as follows:

"If after the experts have conferred, it is established that there is a deficit in the payment by Germany, she is ready to begin negotiations with the Reparation Commission regarding the floating of a loan abroad."

The Reparations Commission met this morning to consider the German reply, which was transmitted from Berlin last night. The Germans' failure to pay is deemed a violation of the treaty of Versailles, which the commission will report to the Allied governments. The Allies will then determine what measure shall be taken.

The German reply does not answer directly the Commission's demand for a first payment of one billion marks today. There is nothing said in the note, nevertheless, to show that it would be impossible for Germany to pay this one billion marks, which the Reparations Commission knows that Germany has available in gold, as well as in foreign securities, it is stated.

HALF MILLION DOLLAR PURSE IS WITHDRAWN

Pugilists Will Battle For Part Of Receipts

Tex. Rickard Announces Change In Plans

(By Associated Press)

New York, March 23.—The half million dollar purse for which Jack Dempsey and Georges Carpentier were to have fought on July 2nd has been withdrawn and the heavyweights will box on a percentage basis when they engage in their world championship battle. This announcement was made here today by Promoter Tex Rickard.

Under the new agreement the pugilists will receive sixty per cent. of the gross gate receipts, the winner to take 60 per cent. and the loser 40 per cent. of that sum.

KILL EIGHT AND WOUND 20 DURING AN AMBUSH

Attackers Fare Disastrously In Ireland

Police Inspector and Eight Men Waylaid

(By Associated Press)

Dublin, March 23.—A police inspector and 8 men were ambushed near Dingle and the fight that ensued lasting three hours ended disastrously for the attacking party, eight of whom were killed and 20 wounded, according to an official announcement here today.

Three of the police were slightly wounded, it was added.

CONSIDER NEW RELATIONS WITH THE RUSSIANS

State Department Plans Change In Attitude

Modifications of Former Ruling Considered

(By Associated Press)

Washington, March 23.—Early consideration is to be given to relations between the United States and Soviet Russia, it was indicated today at the state department.

Formal announcement of any change in the relations between the two countries or in any of the rulings by the Wilson administration may not be made for sometime, but it was made clear that already certain modifications of those rulings either are under consideration or have been made.

These decisions were reached independent of the appeal from the Soviet government to President Harding and the American Government for a resumption of trade relations between the United States and Russia. That appeal reached the state department today from the White House.

EMPLOYES AND PACKERS REACH AN AGREEMENT

(By Associated Press)

Washington, March 23.—Prospects of an immediate strike in the packing industry was averted tonight through the mediation of Secretary of Labor, Davis.

Compromises on the part of the employees in accepting the recently announced wage reductions and on the part of the packers consenting to a six months arbitration arrangement.

BILL TO PERMIT SUNDAY MOVIES RECOMMENDED

Action of Council or Vote Is Provided

Would Permit Showing Afternoon and Night

(By Associated Press)

Columbus, March 23.—The House Cities Commission today recommended for passage the Taylor motion picture bill which is designed to legalize the operation of motion picture theaters on Sunday afternoons and evenings.

Before reporting the bill, however, it adopted an amendment that would prohibit theaters not now operating on Sunday from doing so in the future unless authority is granted by the city council to do so.

In case the council should refuse to grant such permission the question then could be submitted to a vote of the people on petition of three percent of the electors.

FORD TESTING NEW GASOLINE PROPELLED CAR

Has Number of Business Associates With Him

(By Associated Press)

Adrian, Mich., March 23.—In a gasoline propelled passenger coach recently perfected, Henry Ford and a party of business associates is making a tour of inspection over the main line of the Detroit, Toledo and Iron- ton railroad, which he recently acquired.

Although no definite statement has been made, appearance of the gasoline driven coach revived reports that Mr. Ford planned to equip the road with this type of rolling stock.

Other plans of Mr. Ford for development of the road include a straightening out of the line's right-of-way between Detroit and the Ohio border.

EXPLOSION TAKES TOLL OF FIVE IN STEEL MILL

Three Others Believed Buried Under Debris

Side of Blast Furnace Blown Out

(By Associated Press)

Harrisburg, Pa., March 23.—Five men are dead and three are missing and are believed to be buried under many feet of molten metal and white hot brick as the result of a blast furnace "slip" at the Steelton plant of the Bethlehem Steel Company today.

The force of the explosion blew a hole in the side of the furnace letting out the molten metal. Scores of women flocked to the offices of the plant in a frenzy of fear that relatives may have been in the accident.

BOMB TAKES TOLL OF FORTY IN THEATER

(By Associated Press)

London, March 23.—A bomb explosion took place in the Dianna theater at Milan, Italy tonight. 20 persons were killed according to a dispatch from that city. Many were injured, at least twenty of whom are not expected to survive.

Police think the outrage was the work of anarchists as a protest against Malatesta's imprisonment.

SEND REPLY TO GERMANY

(By Associated Press)

Paris, March 23.—The reparation commission has considered the German statement regarding non-payment of the one billion gold marks today the date fixed for payment and is forwarding a communication to the German government according to official announcement.

This communication will be delivered in Berlin tomorrow.

OPEN REVOLT AGAINST DAVIS RIPPER BILL

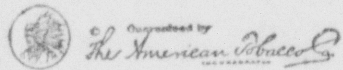

(By Associated Press)

Columbus, March 23.—The first open revolt against the passage of Governor Davis' administrative code for reorganization of state government as an emergency measure occurred today when Senator Burke, republican of Elyria, addressed a letter to Governor Davis in which he protests against passage of the bill as an emergency and thereby preventing a referendum on it.

OTHER CLUBS WILL PRESENT THEIR CAUSE

Dutch Treat Club Invites Representatives of Kiwanis and Rotary Clubs.

Will Probably Affiliate With Club Which Mostly Appeals to Members.

Hays Dill, as chairman of the Dutch Treat Club, has extended invitation to the Columbus Kiwanis Club and Columbus Rotary Club to send representatives to this city at the next two sessions of the club, to fully explain the objects of their respective clubs.

Word has been received that the

Kiwanis Club of Columbus will have representatives at the Thursday noon-day luncheon of the Dutch Treaters, and these representatives, who will be well known business men of Columbus, will present the Kiwanis cause.

On the following Thursday the Rotary Club will send representatives. Rotarism will be fully set forth by the Columbus men. It is the wish of the club that a large representation be present.

It is stated that with the appearance here recently of members of the Exchange Club of Dayton, and movement to firmly establish such a club here, that it is the wish to have the merits of the three clubs—Exchange, Kiwanis and Rotary—set forth before decision to affiliate with either.

Belief is expressed that following the meetings the Dutch Treat Club, known as "an unorganized organization" will be merged into one of the clubs receiving the largest percentage of votes, and that the organization may become a formal organization affiliated with state and national associations.

SPRING FOOTBALL PRACTICE MAY BE STARTED THIS YEAR

While there has been no definite decision it is probable that spring athletics in Washington High School will be in the form of spring football practice.

Washington High will not have a baseball team. All schools writing for games on the diamond have desired the games to be played here. Officials state that many teams desire to play but that they demand the game be on some other grounds rather than their own. This is done because few towns will support a high school baseball team.

Track is an athletic sport that has been popular among high schools but no agitation in this line has been made.

In preparation for another season such as that experienced by Washington High on the football field last year there is much enthusiasm over the prospects of light training during the

next few weeks. An added advantage in spring practice, it is stated, is that those who try for the team will have experienced material to work against. Several seniors who graduate this year will make Coach Moorhead valuable assistants in lining up an eleven for the 1921 season.

IDEAL RESIDENCE SELLS SATURDAY

One of Washington's ideal modern homes will be offered for sale at public auction at the door of the Court House on next Saturday afternoon, March 26th, at 2 o'clock.

For many years this home—formerly the residence of the late Captain E. A. Ramsey, now occupied by Charles Burnett has been recognized as one of the city's most beautiful and comfortable places.

It is located on Washington avenue paved roadway, good sidewalks, and contains between 7 and 8 acres of splendid grounds ideally apportioned as to beauty and utility. The spacious lawn in front with its priceless forest trees and beautiful driveways leading up to the 2 story brick house having all modern improvements gives the air of stately home beauty. The remainder of the ground is splendid for the home garden patches and flower gardens, pasture lots and chicken yards.

The out buildings are all good. In short it would be difficult to assemble all the features which this place offers for the modern home lover, who desires to combine beauty and utility.—Adv.

WILMINGTONIAN FINED \$1000

Harry Gregg and wife, Elsie Gregg, colored, of Wilmington, this week were heavily fined for dealing in intoxicants, the former being fined \$1,000 and the costs and the latter \$300 and costs, or more than \$1300 for the family.

The fine is said to be the largest ever assessed against a bootlegger in the neighboring town, and is held up as a warning to other violators who are said to be taking to cover.

INJURED MAN NOW IN JAIL

Sid Valentine, against whom a charge of stealing chickens is pending in Mayor Dahl's court is now confined in the county jail.

Visiting the Fayette Hospital Wednesday morning where Valentine had been confined, Sheriff Hall learned that Valentine had been upon his feet, and after consulting a physician, ordered Valentine to be removed to the county jail where his companion, George Martin, will care for him until he is more fully recovered.

Valentine is making slow progress toward recovery, owing to the large amount of blood lost and the severe nature of his injuries.

The county will be required to bear the expense of restoring Valentine to a point where he can be dealt with in accordance with his crime.

In the meantime George Martin, his companion in chicken stealing, remains in county jail with bond fixed at \$1,000, which he is unable to furnish.

An investigation as to the ownership of the automobile which figured in the wreck that disclosed the identity of the men is under way.

GRANDMOTHER KNEW

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister.

Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Gently massage Musterole in with the finger-tips. See how quickly it brings relief—heavily the pain disappears.

Use Musterole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

Could You Get Together \$500 If It Would Make You a Multi-millionaire?

The second largest fortune in the world was based on an initial investment of \$500. That started Andrew Carnegie in the accumulation of \$500,000,000. He never failed to attribute his fortune to saving and wise investment. Had Carnegie not been able to get together \$500 for that first investment opportunity, he might never have become a multi-millionaire.

You have a better chance to save and invest than Carnegie had. He was earning only \$50 a month when he made his first investment of \$500, and while he had the advice of his superior officer in selecting good investments, you have at your disposal, without cost or obligation, the advice of the ablest investment bankers.

Our Bond Department is at the disposal of all who seek a proper channel for investment of large or small sums.

LENGTH OF FISH MUST BE WATCHED

"Goggle Eyes" and "Blue Gills" Must be Thrown Back by Fishermen if not of Sufficient Size.

Not many people, and experienced fishermen are included, know the laws regulating the taking of fish that come under the provisions of the law in regard to length.

Many fishermen hook a bass and never think that it may not be of sufficient length to carry home without violating the law. "Goggle eyes" and "sun-fish" also have their restrictions.

The law says:

"Black bass, less than eleven inches in length, calico or strawberry bass and croppie less than six inches in length, rock bass and blue gills less than five inches in length may not be taken in either of the fishing districts of this state; but if any of the fish named in this section are caught unintentionally in any net or with hook and line and are released alive in such manner as not to injure them, such taking shall not be considered an offense."

The fish known as "rock bass" is seldom spoken of in this community for this fish is known by a local name of "goggle eye." For this reason perhaps it seems to be generally understood that there is no limit to the size of the so called "goggle eye."

Few people in this community know what is meant by "blue gills." Those who have had the opportunity of fishing in the waters of Michigan, particularly the lakes abounding there, are well acquainted with this fish. There have been a few "blue gills" distributed in the waters of Fayette county and several reports of catches of these fish have come in. The "blue gill" resembles very closely the ordinary sunfish both as to shape and color. This fish is easily distinguished by a small blue fin just back of the gill.

It is all well enough to die happy but it is far better to live that way.

Mr. Joseph N. Willson, one of the oldest residents of Washington, living on West Market street, is the first person to contribute to the Music Hall Column.

Mr. Willson distinctly recalls many events held in Music Hall which were in the public mind at that time. He says: "A few of the events which took place in Music Hall that I recall to mind and which were worth while was the appearance here of Blind Tom, the famous pianist; Ole Bull, the noted violinist, and the Tom Thumb Company."

"A concert was given there for Theo. Wendell, when he began his career and who since has become one of the great artists of the country. He is the brother of Mrs. J. W. Duffee. General Kilpatrick, one of the great leaders of the Civil War, also appeared in the old hall."

"A masque ball, a leap year ball and school entertainments under Superintendent of City Schools Morehouse were other events worthy of mention."

"Little Red Riding Hood and Blue Bell were presented by the school children under the direction of Miss Mary Walker, who is now the wife of Hon. Harry M. Daugherty, Attorney General of the United States."

"Presbyterian socials and necktie socials were also festivities housed by Music Hall."

THE UNIVERSAL CAR

Genuine Ford Service—and Parts

Insist on genuine Ford parts for your Ford car. Mail order houses, stores and many garages sell imitation—counterfeit parts which have not the quality of the genuine Ford parts, but the Authorized Ford Dealers as well as the Authorized Sales and Service Dealers sell only the genuine Ford-made Ford parts. You are safe with them, while your car is mighty unsafe if repaired with imitation parts. The real Ford parts are made from the same properly heat-treated steel as their counter-parts in the Ford car. Every part is heat-treated according to its use. Depending upon the service they perform, Ford parts are tempered to insure the longest life. Tested after almost every operation while being manufactured, these parts present a vast difference from those not manufactured under Ford supervision. Counterfeit parts range from thirty to seventy-five per cent below the quality of the Ford standard. Don't take chances; demand Ford parts, they're safer. Bring your Ford to us and thus make "assurance doubly sure." If you want a Ford car, truck or Fordson tractor, leave your order without delay, as now we can make fairly prompt delivery—Touring Cars, Coupes, Sedans, Runabouts, Trucks and Fordson Tractors. Tax Reduction a Problem

In some sections of the county, notably those in which the big coal companies maintain their business offices, the incomes and profits tax collections by the internal revenue department will show, it is believed, an increase over their last year, but when the totals are received from the different collection districts and compiled at Washington, the opinion seems to be general that a substantial decrease in receipts, as compared with those of last year, will be disturbingly apparent.

The decrease in income and profits tax receipts has been expected under business conditions existing throughout the nation during the last year. Any other outcome of the March collections would have been a surprise.

With our scheduled obligations maturing, our cost of operating the government not markedly decreased and with tremendously costly programs for navy construction already practically agreed upon, the big problem which confronts the administration is how to meet the expense.

One thing which seems to be well settled is that the people, under present business conditions are in no mood to receive favorably a proposal to increase the burdens of taxation. They would be especially hostile to a proposal to repeal the profits tax sections, refusal to enact a tax on big business and an endeavor to make up the deficit by a heavier tax on the people of more modest means.

The statement that the income and profits tax laws are detrimental to the growth and development of legitimate business and one of the primary causes of high prices, is not susceptible of successful contradiction. The income and profits tax laws should be repealed or amended, but the money must be raised from some source and where, with no sufficient foreign commerce established, can the burden be placed.

Thus far the administration gives no indication of being possessed of a determination to reduce expenditures, preferring, as have its predecessors to devising ways and means to meet an increasing expense account.

Nibbling at salaries and reducing the number of employees is futile. The only way to reduce taxes is to stop the preparation for war.

A Turn For The Worse

After sending us many days of early summer weather March, rather unexpectedly summoned the wintry blasts from out the north and west just to remind us that we should not be too fast in bidding a final goodbye to winter.

Saturday and Sunday, although Sunday was a bit squally—too much so to be really enjoyable—were real summer days and many people became enthusiastic and a bit forgetful of the time of year.

Perhaps it is just as well that March did call a halt on us all. We were getting up speed at too high a rate, considering we were not yet clear of the danger zone.

Thus far there has been no report hereabouts of serious damage. The fruit trees seemed a little timid in sending forth the tender buds. The cold snap now may save us more serious trouble later on in the season.

Consult Local Financiers

The agitation for additional legislation, by the nation and the states, to protect the dollars of the unsophisticated against the rushes of the unscrupulous, is right now being given fresh impetus.

The contraction of the currency, as we have come to express that refusal of the financiers to longer stand back of speculative proposals, has brought to light the appalling fact that there are hundreds of thousands of people, especially in the rural districts, who should possess an abundance of reserve capital to carry them safely over the present financial pinch, who have been plucked clean of ready money and, in many instances, left in debt by glib salesmen who have loaded them up with no account stocks.

The strange feature in connection with it all is that people with surplus money do not consult their bankers and local business men until they are broke. The home banks must furnish the money when needed. Why so many men do not consult their home bankers about investments for their surplus money as well as going to them for financial relief, is one of the inexplicable things in finance. If people with money to invest would consult with local financiers, the foreign peddler of outside securities would have slim picking and the several communities more money and less need to borrow.

POETRY FOR TODAY

FACE THE SUNSHINE

Face the sunshine—let the shadows lie behind you;
Face the sunshine from life's dawn—ing to its night;
Face the sunshine, though at first its brightness blind you—
Face the sunshine! Keep the shadows out of sight.

Face the sunshine—let its beams your smiling heighten;
Face the sunshine—let its rays suffuse your soul;
Face the sunshine—let its warmth your pleasure heighten;
Face the sunshine and be quit of grief and dole.

Face the sunshine—let its sweet caress remind you
Of the brightness we should scatter through the years;
Face the sunshine—let the shadows fall behind you,
And the sunshine will put rainbows in your tears!

Herald News This Date 1911

The daily report which County Treasurer Phil E. Rothrock is compelled to file with County Auditor A. E. Henkle for Wednesday is worthy of remark in that during the whole day not one single cent was received and not one single cent was paid out at the treasurer's office.

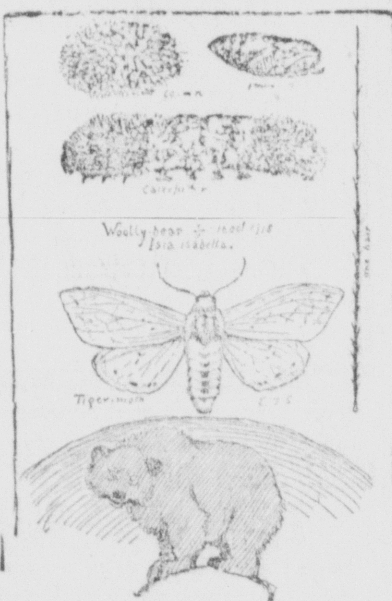

Wednesday seems to have been a day apart when the "nothing doing" sign could have been very properly hung up at the treasurer's office.

THINGS TO SEE IN THE SPRINGTIME

THE WOOLLY-BEAR

By Ernest Thompson Seton.

(Copyright 1921.)
(By Ernest Thompson Seton)

The Woolly-bear (the moth in 14 life size)

Do you know the Woolly-bear, Caterpillar? It is divided into three parts; the middle one brown, the two ends black. Everyone notices the Woolly-bear, because it comes out in early spring, as soon as the frost is over, and crawls on the fences and sidewalks as though they belong to it. It does not seem to be afraid of anyone or anything. It will march across the road in front of a motor car, or crawl up the leg of your boot. Sometime when you brush it off with your hand, little hairs are left sticking in your fingers, because it is really like a small porcupine, protected by short spines sticking out of its skin in all directions. Here at the side of the picture is one of these hairs seen under a microscope.

Where did the Woolly-bear come from? It was hatched from an egg last summer.

And now what is going to happen? It will stuff itself with ribgrass or other low plants, till it has grown bigger; then it will get a warning from the Allmother to prepare for the great change. In some low, dry place under a log, stone, or fence, rail, it will spin a cocoon with its own spikey hairs outside for a protector. In this rough hairy coffin it will roll itself up, for its "little death," as the Indians call it, and Mother Carey will come along with her sleeping wand, and touch it, so it will go into sound sleep, but only for a few days. One bright sunny morning Mother Carey comes around again, touches the Woolly-bear, bundle-baby, and out of it comes the Woolly-bear, only now it is changed like the Prince in the story into a beautiful moth called the Tiger Moth! Out he comes, and if you look up at one end of the coffin he is leaving, you may see the grave-clothes he wore when he first went to sleep. Away he flies now to seek his beautiful mate, and soon she lays a lot of eggs; from each of them will come another little Woolly-bear to grow into a big Woolly-bear, and do it all over again.

If the nations could disarm suspicion the rest would be easy.

VIVIANI'S VISIT AN ACT OF COURTESY ON FRANCE'S PART

Famous Orator Will Try to Promote Good Feeling Between Nation's.

No Chance For Him To Get Action On League in Present Temper Washington Powers

BY MARK SULLIVAN
(Copyright 1921)

Washington, March 23. — Understanding the political aspects at both ends of Viviani's visit will help the American public toward a more accurate estimate of such significance as it has.

From the point of view of politics, Viviani has something of the same relation to the present powers that be in France that, let us say, Gov. Lowden or Gen. Wood has to President Harding. Sending Viviani here is to a degree a "taking care" of him, with an agreeable honor, not unlike the sending of Gen. Wood to the Philippines or offering Gov. Lowden the Ambassadorship to France.

Viviani is a fervid orator who enjoys talking and does it well. When he was here during the war he enjoyed oratorical triumphs which it will please him to repeat. The unprecedented speech he delivered on the floor of Congress was a histrionic triumph like that of Bernhard on the stage. The fact that the speech was in French and had to be interpreted by Senator, then Congressman Medill McCormick of Illinois, robbed the performance of none of its thrills. Viviani's present commission to repeat his former triumph here is an act of courtesy on the part of the new administration in France both to him personally and to us.

One other aspect of Viviani's visit lies in the fact that some of the French statesmen and newspapers are uneasy, probably without serious reason, about the present French representation in America. Ambassador Jusserand for eight years quite naturally played quite close to President Wilson and the latter's advocacy of the League of Nations. If the French think that with the coming into power of the Republican and anti-League party it will be well to buttress Jusserand's position with occasional attention to Harding and the new party in power from other and informal ambassadors, that is not unnatural.

If Viviani, between his speech making and visiting tries to inform himself about the present atmosphere of Washington on the League of Nations and on Europe generally, he will probably report that for the present nothing is crystallizing; that the present condition of the world is not regarded as favorable for any definite or affirmative step on the part of America; that looking to the future the new administration will not only welcome but encourage approaches similar to Viviani's from the statesmen of other European countries, and that this course is deemed much better than for up to take any step like the widely discussed but not well grounded report that we would send a delegation to Europe headed by Mr. Root.

Viviani may or may not feel, and some Americans may or may not feel that in the light of our repudiation of what our recent President committed us to it is now distinctly up to us to take the next step. But if Viviani reports the present atmosphere of Washington as any American reporter finds it, he will describe it as here set forth.

GRATEFUL WOMEN

Gratitude and appreciation for health restored by that good old fashioned root and herb medicine, Lydia E. Pinkham's Vegetable Compound, is what prompts so many women from all parts of the country to write to the Lydia E. Pinkham Medicine Co. of Lynn, Mass., the letters of praise which we publish from time to time. Women who have always had their health cannot realize what it means to others, many of whom have suffered for months and even years from such ailments, and are now well and happy through the use of this natural restorative, Lydia E. Pinkham's Vegetable Compound.—Adv.

Lay Them Right Over the Old Shingles

WHEN your shingle roof must be replaced you need no longer suffer the houseful of dust and dirt, litter, annoyance and expense of ripping off the old shingles. Leave them where they are and lay Johns-Manville Asbestos Shingles right on top of them. Then you'll have a roof that is fireproof and everlasting; you'll get the benefit of the splendid roof insulation afforded by the old shingles and, most important of all, you will have re-roofed for the last time.

RE-ROOF FOR THE LAST TIME WITH JOHNS-MANVILLE ASBESTOS SHINGLES

Lay Johns-Manville Asbestos Shingles right over the old wooden shingles and you eliminate roofing troubles and expense for all time because Johns-Manville Asbestos Shingles will last as long as your building stands. They're all mineral—nothing in them to rot or burn; they will not warp, curl or split; they never need paint; they're easy to lay and they are most attractive in appearance.

Does your roof need replacement? If so, it will pay you to get full information about this method of re-roofing with Johns-Manville Asbestos Shingles. See us at once. We can do the work for you quickly, easily and economically.

RANDOM NOTES

SOCIAL : PERSONAL MENTION : CLUBS

Among Ohio State Seniors nominated for May Queen is Miss Kathleen Davis of this city.

The question will be decided by the student body at Ohio State at the election of Woman's Student Council April 4th. The May Queen will be accorded the honors at the annual May fete, May twentieth.

Thirteen seniors have been nominated for the honor.

A Lady Astor was leaving her residence in England a soldier halted her, used violent language and threatened to kill her. Lady Astor played for time and tried to get the man's name and address.

Her tactics were so successful that the soldier started to run, with his questioner in close pursuit. The chase led first to some stables and then to a public house, the soldier finally being caught and turned over to the police.

Lady Astor, however, expressed the wish that no action be taken against the man.

The Tuesday noon luncheons at the Y. W. C. A. are now well established and much of their success is due to the generosity of donors, who contribute home made delicacies, jellies, marmalades, pudding, home made brown and white bread, cream and home made candies have made all the difference in giving to these luncheons the semblance of the home luncheon or the expensive club affair.

None of the guests at the St. Patrick luncheon will forget the dainty home made bon bons, which supplemented the desert.

So inviting have these luncheons become that small parties are being made up each week and quite a little quiet entertaining is being done at the "Y. W."

The young women of the association are deeply grateful to the thoughtful women who send from their own homes such dainty accessories for these luncheons.

Mr. and Mrs. Walter Jones delightfully entertained thirty friends from New Holland at a buffet supper at six o'clock Tuesday evening.

The home was prettily enfeet with jonquills, daffodils and apricot blossoms in graceful arrangement through the rooms and on the table.

The supper was very jolly and later Mr. and Mrs. Jones took their guests

to the Masonic Social Club dance, a happy finale to their entertainment.

Mrs. Frank C. Parrett charmingly entertained the Tuesday Bridge Club at their usual luncheon and game. Pink tulips were lovely in decoration.

Mrs. O. D. Farquhar extended cordial hospitality to the Tuesday Kensington Club, the guests confined to the club members.

A dainty collation was served.

Sixty couples enjoyed Tuesday night's Masonic Social Club dance, including a large number from New Holland and from Sabina and Frankfort. O'Brien's Orchestra of Springfield, furnished their always delightful music and appetizing refreshments were served.

The Woman's Relief Corps is planning for a Kensington to follow at half past two o'clock the initiation in charge of Mrs. Belle Pickering, President, at Memorial Hall Thursday afternoon.

The Kensington and social features will be in charge of the social committee, Mrs. Emma Hay chairman, Mrs. Jennie Beck, associated Chairman, Mesdames Clara Harper, Lydia Porter, Sarah Inskeep, Charles Porter, Misses Mary Cline and Pearl Minton.

A dispatch from Paris states that the chic Parisiennes have taken to wearing patches again, little round gowns.

The custom is known to have started in the reign of Queen Elizabeth, a reign notable for countless other innovations. They did not become common, however, until the reign of James I, and obtain their greatest vogue in the Georgian era.

"Black patches are worn," says a writer of the period, "some for pride, some to stay the rheume and some to hide." Nowadays their function is chiefly that of enhancing the personal beauty of the wearer. There use as charms against evil and disease is no longer vogue.

In those eras black and colored paints frequently alternated with the bits of courtplaster. It is likely that the American Indians, whose presence in England exerted such an effect on the imaginations of the English, may have been responsible for the vogue of paints and patches, their costume consisting chiefly of paint.

Some of the patches were extreme. There is a woodcut which represents a woman as wearing on her forehead a cutout of a coach, coachman, horses and postillions. Other shapes taken by the patches were stars, crescents and crosses. It was not uncommon for a woman to wear patches on each cheek, on chin and on fore head at the same time.

A hint to the blue law reformers is in the bill introduced in Parliament in 1650 against "painting black patches and immodest dresses." Parliament never passed the bill.

The outstanding feature of the first of the eight district conferences of the Ohio Federation of Women's Clubs at Kent March 11 and 12 was the official announcement that the Ohio Federation now has a membership of more than 100,000. This announcement was made by Mrs. William H. Sharp, Columbus, president of the state federation. In an address that captivated her hearers she told of the splendid work accomplished in all of the various departments of the state federation as well as by the local federations and individual clubs all over Ohio. Voicing her conception of a club woman's duty as a citizen, she asserted that "politics, like charity, begins at home," and added: "The place to begin the community service is at the ballot box. See that your party secures good candidates. If your party does not put up the right kind, vote with the other party. This may not be good politics, but it is good citizenship. We are a federation of more than 100,000

strong, and we must let our parties know that we intend to have people in office that will secure for city, state and nation the right kind of government." Mrs. Sharp elaborated somewhat on the fact that Ohio Club women were behind House Bill No. 14, calling for better moving pictures in Ohio. Her remarks in this regard were supplemented by Miss Genevieve Cline, Cleveland, state federation legislative chairman, who said that many of the pictures today formed an incentive to crime. "There must be a change, and it is upon the head of the women of Ohio if this bill fails to become a law," Miss Cline declared.

The address of Hon. William G. Sharp, Elyria, former ambassador to France, was the line feature of the Kent program. This was the big thought he imparted that all club women carried home with them:

"France is founded on three pillars—religion, education and patriotism and the people of France live all three in their every day lives."

Three hundred and fifty-two delegates and guests attended the Kent convention, which was a real success. It was notable for the large galaxy of state officers that it drew and for the brilliancy of its program. In addition, no hostess city could have been more generous in its hospitality or more charming to its guests. A number of state officers were in attendance besides the president, Mrs. Sharp, and Mrs. George Elliott McConnell.

Mrs. Ellsworth Vannorsdal, of Jeffersonville, underwent a serious operation at Grant Hospital in Columbus, Tuesday morning.

Miss Helen Pegg, of Xenia, Miss Sarah Robinson, of Springfield, Mr. W. F. Dice, and Mrs. E. W. Johnson were recently entertained at six o'clock dinner by Mr. and Mrs. F. H. Powers, of Milledgeville.

Mr. and Mrs. Roy Hagler motored to Columbus Wednesday to bring back Woldeane Teachnor from St. Marys of the Springs for the Easter vacation.

Mr. Will Palmer and family moved Tuesday from East Market street in to the Bannon property on Paint street.

Miss Dorothy Moore is the guest of Miss Margaret Skough, near Sedalia, remaining for the week end.

Judge and Mrs. Frank G. Carpenter moved Tuesday from the Cherry Hotel into their handsome new home on E. Market street, recently completed.

Miss Mayne B. Allerdisse of South Hinde street is visiting Dr. and Mrs. C. O. Moon in Wilmington.

Mr. Joseph I. Taggart was a business visitor in Xenia, Wednesday.

Mrs. Raymond Bart and son, Cecil Eugene, of Gallon, Ohio are visiting her brother Mr. C. E. Clutter and wife of Leesburg Avenue.

Miss Doris Willis, who is a student at the Maryland College, Spencerville Md., is spending her spring vacation in Baltimore engaged in settlement work.

Mrs. B. F. Davis left Wednesday for Chicago where she will be joined by her daughter Miss Lillian for a few days and accompanies her back to Princeton Ill., for a visit. Miss Davis is instructor in the High School at Princeton.

Robert A. Craig came Tuesday from Ohio Wesleyan University at Delaware, to spend the Easter vacation with his father, Mr. Thomas H. Craig and family.

Miss Ruth Armitrout, of Milledgeville, and Miss Ruth Cissna students at the Office Training School in Columbus, came Wednesday for the Easter vacation, and Miss Nell Cissna comes from Ohio State University, Thursday.

Robert Sollars is home from Ohio Wesleyan University Delaware, for the vacation.

Miss Ruth Hagler is remaining at Sweet Briar College, Sweet Briar Va. for the vacation.

Miss Virginia Campbell is spending the Easter vacation of Miss Mason's Scholl. The Cattle, at Tarrytown, New York with a school mate, Miss Helen Buckley in Washington, D. C.

Sherman Brownell has as his guest for the vacation James Forsythe of Philadelphia, Pa. a fraternity brother at Ohio Wesleyan University. Amor Tarbil of Delaware also a fraternity brother was a guest at the Brownell home, Tuesday night.

Mrs. Charles Allen is spending some time with her daughter Mrs. Walter McCoy on the Cisco road.

Mr. Paul Williams of Columbus was the guest of Mr. Charles U. Armstrong to attend the Masonic Social Club dance Tuesday night.

Miss Marcella Griffith is spending the Easter vacation of Ohio Wesleyan University, with her mother, Mrs. J. S. Griffith and family.

FAST SHAPING GUARD COMPANY

Company Roster Reaches to 64 With Enlistment of Rainbow Veteran

M Company, Fourth Regiment, Ohio National Guard, is fast being whipped into a unit of trained men under the direction of Captain Henry D. Smith and officers.

At the regular drill period Tuesday evening at Memorial Hall the men were instructed in the school of the soldier and squad drill. The drill was spirited and the company, although without uniforms or equipment of any kind, made a "snappy" appearance.

With the enlistment of Emmet Hays the company roster totals 64 men. Hays is an overseas veteran and saw service with M Company, 166th Infantry.

All company formations are being held on the third floor of Memorial Hall and until other arrangements are made this will continue to be headquarters.

Captain Smith stated Wednesday that as soon as the necessary blanks are received uniforms and equipment will be ordered. He expects to make a trip to Columbus within the next few days for the purpose of seeing Adjutant General Florence about several matters of importance including company equipment.

TAX BLANKS WILL BE DISTRIBUTED BY FOUR ASSESSORS

While the mails will be used to reach tax payers with blanks for making returns, four assessors in this city will distribute the blanks in person to the residences and places of business, thus insuring all persons receiving blanks, reaching new residents and some who probably have been dodging their taxes.

The four assessors will deliver the blanks, obtain the names of the tax listers, and file them with County Auditor Pine.

Taxes set on April 10, and all returns must be based upon personal property on hands on that date, and the returns must be filed with the County Recorder as soon as possible after April 10.

The assessors for the various wards are: First ward, Harry Hays; Second ward, Isaac Sollars; Third ward, Sherman Murray; Fourth Ward, Ralph Penn.

The first blanks will be distributed about April 1st.

FRUIT BUDS ARE DAMAGED BY FROST OF TUESDAY NIGHT

The heavy frost and light freeze of Tuesday night is believed to have badly damaged some of the fruit buds which were far advanced although the outlook for a good fruit yield still remains favorable, according to Fayette countants who have expressed themselves on the results of the Tuesday night cold-snap.

Heavy frosts in the early spring are not uncommon when buds are almost ready to open, and the light of the moon is said to have been a "life-saver" during the present freeze.

Trees in blossom, such as plum trees, probably suffered an almost complete killing of the buds, but the average fruit buds are thought to have passed the crisis in fair condition with a large percentage of the buds escaping.

In addition to a white frost, a thin crust was frozen where the soil was damp.

The freeze was highly beneficial to plowed ground which has been breaking in bad condition, due to lack of heavy freezing during the winter.

FRANKFORT AGAIN WITHOUT LIGHTS

Due to a squabble over paying for street lights, Frankfort again is without illumination, and will continue so until definite action is taken to insure payment of the street lighting bills.

The council and board of public affairs recently held a stormy session, and the "no light" is a result of the session.

A recent issue of the Frankfort Sun tells of the trouble as follows:

"The refusal of council to pay for street lighting and water protection from the fund voted for that purpose at the primary election last April resulted in the board ordering all street lights discontinued until council sees fit to pay for same. Water service will be continued for fire protection even without compensation."

"Many contend that the fact that Frankfort has not paid for street lighting the past ten years has resulted in the present rundown condition of her lighting system; also the present high rate for domestic use; this rate was established to tide over the present high cost of operation, and the board is desirous of lowering this rate as soon as circumstances will permit."

"The board has ruled that all light furnished must be paid for, and as council refused to pay for street lights they are cut out just the same as service is discontinued for domestic lights when they are not settled in the allotted time."

MAN IS INJURED CRANKING CAR

Attempting to crank an automobile at the Arcade Garage on Fayette street Wednesday morning, Robert James, Paint street, had three front teeth knocked out. The crank slipped off the shaft and caused the accident.

MUTINEERS ARE ON THEIR WAY TO NEW YORK

Men Shackled Aboard Vessel Will be Tried

May Not be Connected With Bomb Plot

(By Associated Press) Washington, March 23.—The five men held at New Orleans on a charge of mutiny aboard the Shipping Board Steamer City of Alton, will be taken to New York next week to stand trial on that charge, it was stated today by William J. Flynn, Chief of the Department of Justice, Bureau of Investigation.

Mr. Flynn added that the case against the men was in the hands of District Attorney Olney, of New York. Investigation into the possible connection between the prisoners and the Wall street bomb explosion last September is continuing, Mr. Flynn said, but as yet no evidence has been found to connect them with it.

SIX CIVILIANS ARE SHOT DOWN

(By Associated Press) Cork, Ireland, March 23.—Six civilians were killed in the Blarney district, County Cork, this morning in a battle which ensued when Crown forces were fired upon from a farm house.

YOUTH RELEASED WAS UNDER AGE

It is being ascertained by the Probate Court that Howard Day, youthful train rider from whom a gun was taken when he was arrested some 22 days ago, was under 18 years of age, and had previously borne a good record. Probate Judge Gregg has released Day on parole, and he is to return to his home in Cromers, O., and report at frequent intervals.

PUBLISHERS SAY NO LOWER RATE FOR ADVERTISING NOW POSSIBLE

Louisville, March 20.—That financial disaster would follow the reduction of advertising rates was the consensus of opinion of publishers and advertising executives of newspapers attending here today a meeting of the officers and directors of the National Association of Newspaper Executives, according to Charles Miller of Atlanta, Ga., president.

"Retailers have been misled by the spot market prices of paper," said Mr. Miller. "It is true that the spot market price of paper has dropped from 12 cent a pound to 7. However, publishers buy their paper on contract. Then, too, freight rates are higher and there have been no reductions in the wage scale of men. Consequently lower rates are out of the question."

Plans for the annual convention of the association, to be held in Atlanta week of June 12, in conjunction with the meeting of the Associated Advertising Clubs of the World, were discussed.

NEW TYPE PLANE IN CONSTRUCTION AT CITY'S EDGE

Otis Stuckey Is Youthful Builder of One Man Monoplane.

Is Preparing For First Trial Flight.

In a barn on the outskirts of this city a new type of airplane is in the process of construction and the report that it is being prepared for its initial flight has created no little interest.

The builder of the plane is Otis Stuckey, son of Mrs. S. A. Stuckey, of South Fayette street. He is employed at odd moments at the S. E. Simmons Jewelry Shop on North Fayette street.

Few people have been fortunate enough to see the new plane but those who have gained entrance to the shed where it is being built state that it is neat piece of workmanship. Stuckey has been working on the machine all winter.

According to report the plane is a one man type and is more than ordinarily small. It is constructed of finest materials and is wired and braced in regulation style of workmanship. It is of the monoplane design.

The driver sits behind the wings instead of behind the engine as in the regular monoplane type and it is said that the steering is done by shifting the seat and throwing the weight of the occupant either direction or up or down.

A motorcycle engine has been used to furnish the power.

Stuckey is now engaged in tuning up his engine and making ready for the first flight attempt. As soon as he receives a new magnet to his machine will be complete.

COLUMBUS GAS RATE IS FIXED 45 TO 65 CENTS

Columbus, beginning July 12, and continuing for a period of three years will have a gas rate of 45 cents per 1,000 cubic feet for the first 10,000 feet; 55 cents per 1,000 for the second 10,000 feet, and 65 cents per 1,000 for all over 20,000 feet consumed in any one month.

The Columbus council passed the ordinance fixing the rates at a meeting Monday night and the officials of both distributing and producing companies have agreed to accept the rate.

Other features of the new contract are:

The Ohio Fuel Supply Co. agrees to expend \$750,000 during the first year of the contract in an effort to obtain a gas supply for Columbus.

The city recognizes the 30-rate which has been effective since the companies appealed the 25-cent rate authorized by council in 1916, to the public utilities commission.

The city waives exaction of 10 per cent of the gross receipts of the Federal Gas and Fuel Co. Payments of the percentage due the city since the rate appeal of 1916 will be settled on the basis of 30 cents per 1,000 cubic feet.

E. L. Taylor, attorney for the distributing companies, estimated the city will receive more than \$200,000 in this settlement.

No guarantee of supply is included in the rate ordinance, but the distributing companies will make quarterly reports to the city clerk, showing the amount of gas delivered each three months. Industrial and domestic consumers will be kept separate in these reports.

The producing company will make a yearly report, showing the amount expended, number of wells drilled and other facts about production.

BOY STOWAWAY'S CHAINED TO DECK OF OCEAN VESSEL

Jon Jacobson, eating lunch while chained to rail of Eldena.

Due to the recent ruling of the state department Jon Jacobson, fifteen-year-old stowaway, may have to spend five years aboard the ocean steamer Eldena now docked at New York. He boarded the boat at Bizerta, Tunis. The ship's captain does not want to return to Tunis. Under the law the boy cannot enter the U. S. until he is of age—five years hence. As the captain faces a penalty if the stowaway escapes, the captain keeps the lad chained to the ship's rail.

REMARK COSTLY TO THESE YOUTHS

Chilliothe youths will be careful in their choice of words the next time they desire to say something "nice" about young girls who happen to be passing.

The following is from the Chilliothe Scioto-Gazette:

"The remark 'Some Baby,' made by a gang of youths congregated in front of the New York pool room on North Paint street Sunday afternoon to a passing trio of young ladies, just cost each one of the boys \$5 and costs when they were arraigned in police court Monday morning.

"Captain Jack Melvine happened to be standing near when the remark was made and arrested the following: Edwin Wagner, 19; Fred Cochran, 18; George Dardling, 18; Chester Ogle, 18; Franklin Huff, 18, and Charles McFain, 20."

WAYNE HIGH ENTERED IN ORATORICAL MEET

Wayne Township High School at Good Hope is entered in the Scioto Valley Interscholastic Oratorical Association meet to be held at Richmond Dale, April 29. Schools are entered from Ross, Pike and Scioto counties and thirteen entrants have registered.

A field day meet will precede the oratorical contest in the evening. Judges of the contest will be Supt. B. A. Skinner, of Marietta; Prof. A. R. Mead, of Ohio Wesleyan University; and T. Howard Winter, of the State Department of Columbus.
